Ismail B. Sendi, MD
1935-2015

Founded in 1991 by **Dr. Ismail Sendi**, New Oakland Family Centers specializes in treatments for children, adolescents and adults facing mental health crises and requiring a intensive level of care. To meet that important need, Dr. Sendi pioneered the **FACE to FACE continuum of care**, designed to bring an intensive, compassionate and medically rigorous approach to treatment.

Summer Mental Health Youth Day Program

School's out . . . but for our community's youth and families, summer can be an opportunity to work on something that is often just as important — the personal and mental health challenges that can keep our kids from thriving.

To meet that opportunity, New Oakland Family Centers is pleased to offer our **FACE to FACE Summer Mental Health Youth Day Program**.

If you are a parent, we hope you'll consider New Oakland's FACE to FACE program for your child if he or she is in need. Consultations are free and all insurances are accepted.

For a consultation about New Oakland's Summer Mental Health Day Program and whether it may be right for a child or teen you know, contact our **summer program coordinator**

by **phone** at:

855.855.8250

on the web at:

www.NewOakland.org/Summer

or by **email** at:

Summer@NewOakland.org

If you are a **parent**, we hope you'll consider New Oakland's FACE to FACE summer program for your child if he or she is in need. Consultations are free and all insurances are accepted.

If you are a **medical, mental health or school professional** consider recommending New Oakland's summer program to families with children or teens with mental health challenges that may be effectively addressed with an intensive, compassionate one- to two-week day program.

Each FACE to FACE summer day program session features:

- **Daily outpatient intensive therapy** from 9:00 am-3:00 pm, Monday through Friday
- Organization into **age-appropriate groups for children, pre-teens and teens**
- **Psychological testing** for every summer program participant to establish a baseline for care

- Evaluation and treatment by a **multi-disciplinary professional staff** including psychiatrists, medical physicians, nurses, social workers, psychologists, professional counselors and other behavioral health professionals.

Each participant in New Oakland's Summer Mental Health Youth Day Program receives:

- **Immediate psychiatric evaluations**
- **Psychiatric medication management**
- **Daily individual/family therapy**
- **Twice daily group therapy**
- **Psychological testing**
- **Daily mental health education groups**
- **Nursing evaluation and care**
- **Immediate post-inpatient appointment**
- **FREE transportation**
